1. In the last half of 1948 the School for Apprentice Aviation Mechanics was located in the General Milan Ratislav Stefanik Caserne /see Enclosure A/. I believe the name of the Caserne was changed in 1949. This school offered a three-year course in mechanics and accepted students from the 14-15 year age group, and up. The students specialized in one of the following subjects: electricity, motors, air frames, flight instruments, or hydraulics.
2. Upon completion of the three-year course the students were transferred to the Aviation Mechanics School at Liberec for a two-year advanced mechanics course, from which they graduated as sergeants in the Czech Air Force. I remember hearing that the school at Liberec had been transferred to Turciansky Svaty Martin N 49-04, E 18-567, but I do not know when.

LEGEND

- POINT # 1. Olomouc-Letivov Highway: asphalt surface, five-six meters wide, ran adjacent to the north and east sides of the Caserne, Point 2.
- # 2. General Milan Ratislav Stefanik Caserne: 250-300 x 150 m. building, surrounded by a 2½ m. high concrete wall. The main entrance, an iron gate, was located on the east side of the Caserne and guarded by armed Czech Air Force sentries. All personnel observed wore the blue Czech Air Force uniforms. Upon completion of the three-year course the students were transferred to the Liberec Aviation Mechanics' School for a two-year advanced mechanics course, from which they graduated as sergeants in the Czech Air Force. Source had heard, but could not specify date or source, that the school at Liberec had been transferred to Turciansky Svaty Martin N 49-04, E 18-56. He had no further information.
- # 3. Cobblestone Road: from Olomouc to Konice N 49-35, E 16-53.
- # 4. Nederin Cemetery: located approximately one kilometer west of the Caserne, Point 2.
- # 5. Olomouc/Nederin Airfield: located 2-2½ km. south of Caserne
